COMPLAINTS AND COMMENTS

If you have a complaint or concern about the service you have received from this Practice, please let us know so that we as the Practice can try to address any issues in the first instance.

We have a complaints procedure as part of a NHS system for dealing with complaints. All organizations providing NHS services are required to operate the complaints procedure set out in the Local Authority Social Services and National Health Service Complaints (England) Regulations 2009.

How to Complain

We hope most problems can be sorted out quickly at the time they arise and with the person concerned. If you would like to make a verbal complaint, please ask the reception staff and they will make an arrangement for you to speak to the Complaints Team.

If your problem cannot be sorted out in this way and you wish to make a written complaint, we would like you to let us know as soon as possible, ideally within a few days or weeks because this will enable us to establish what happened more easily. If it is not possible to do that, please let us have details of your complaint within 6 months of the event that caused you to complain or within 6 months of realizing you had cause to complain (provided that this is within 12 months of the event).

Where a complaint is submitted outside 12 months, the practice will still consider the complaint if there are good reasons for the complaint not having been submitted within the time limit, provided it is still possible to investigate the complaint effectively and fairly.

You can let us know the details of your complaint either verbally or by making a written complaint.

All complaints should be addressed to:

Complaints Team

Plashet Road Medical Centre

152 Plashet Road

London, E13 0QT

Alternatively, you may ask for an appointment in order to discuss your concerns. They will explain the complaints procedure to you and will deal with the complaint promptly.

Complaining On Behalf of Someone Else

If you are complaining on behalf of someone else (other than a child for which we know you to be the person with parental responsibility), we will need to know that you have their permission to make the complaint on their behalf and we will need their written consent to reveal any of their personal information to you.

If you are complaining on behalf of an adult who is physically unable to sign a consent note (for example due to a disability), we will make arrangements to obtain verbal consent. If an adult lacks capacity to give consent, the Practice will need to follow the provisions of the Mental Health Act 2005 in order to determine what can or cannot be done.
